

The **KoMo Fidibus Classic** flour mill offers beautifully clean lines and excellent grain milling performance. The attractive housing of solid native beech features classic box joinery. An exceptionally advanced, yet beautifully simple, milling mechanism. Precisely fitted self-sharpening millstone of corundum-ceramic burrs grind to any texture you choose, from exceedingly fine flour to coarse meal or cracked grain. You can do this by simply rotating the hopper to align with your choice on the front texture-setting scale.

KoMo mill is equipped with specially developed electric motor that provides reliable, yet quiet power. The KoMo Classic electric grain mill has a 360 watt motor. It produces 100g of flour per minute, and as with all KoMo mills, the Classic can run continuously so you can refill and keep grinding for whatever quantity of flour you need. Its solid beech hopper holds 850g of grain.

The KoMo Classic flour mill will grind dry grains: wheat, oat groats, rice, triticale, kamut, spelt, buckwheat, barley, rye, millet, quinoa, amaranth, sorghum and dent (field) corn. It will also grind lentils, dry beans (pinto, red, garbanzo, kidney, chickpeas and more), and dried, non-oily spices. It is not suitable for herbs, oilseeds like flax or sesame, popcorn or fibrous materials.

As with all KoMo grinders, clean-up is minimal and easy, and access to the milling chamber takes just a moment and requires no tools.

KoMo flour mills and flakers are innovative designs developed by Wolfgang Mock of Germany and Peter Koidl of Austria.

Charlotte's Living Harmony is the only importer of KoMo flour mills and grain flakers to Australia and is proud to represent their fine European craftsmanship to our customers.

KOMO FIDIBUS CLASSIC MILL

Milling rate for bread flour texture:	100g per minute
Hopper fill capacity:	1kg
Millstone diameter:	85mm
Electric motor size:	360W
Weight:	8kg
Max. height of bowl at spout:	140mm
Dimensions: H x D x W in mm:	330 x 152 x 152 (including spout)
Warranty:	12 years
